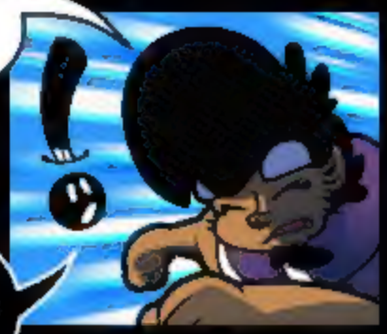
Crap! Really could use Parm's bunny costume right about now!



Weird they don't like ya for being human, after Parmesan was so nice to you, Toma!

Hah! Parmesan was one of Acre's earliest toons, probably before he became so cy~

Think he'll know where we are the second I turn back into the wolf, Blot? Want to find out?

Might not have a choice if we can't hide!

OOF!
Oh come on I can just TELL they are looking for a fight!
WOAH!
Cool!

Hey, thanks for the save, but that rocket trail is going to lead my problem right here!

Why put your neck on the line for me!?

Okay. I have so many questions, but we gotta get some-place safe, first!

Listen, man! This cat is both dangerous and on my tail!

Why are you SO chill!?
